TO WHOMSOEVER IT MAY CONCERN

M/S. Instruments care (Chennai) Pvt. Ltd. has been doing a high efficient work towards service, maintenance and upkeep of our UV-Visible (varian Cary 300 Bio, Hitachi 3410) and fluorescence instrument (Perkin Elmer LS 55) for the past 7 years. They have shown interest and ingenuity in attending to component level repairs, often obviating the need for costly board level replacements. Their commitment and professionalism to the job is highly exemplary. We are satisfied with the prompt and effective services provided by them.

With best wishes and pleasure I am issuing this certificate.

S. Arunachalam
