**TO WHOMSOEVER IT MAY CONCERN**

M/S. Instrument Care (Chennai) Pvt. Ltd has been doing an excellent work towards service and maintenance to keep our instruments namely: Atomic Absorption Spectrophotometer (AAS) of GBC make (model GBC 902), UV-Visible spectrophotometer of Perkin Elmer make (model EZ 301) and HPLC of Shimadzu make for past five years. Moreover, the model EZ 301 which was not repaired by Perkin Elmer itself was attended by Instrument care with self respect and ingenuity in conducting component level repairs, often obviating the need for costly board level replacements. They have shown remarkable interest and punctuality in attending and servicing the above instruments with sincerity.

Due to their commitment, approachability and professionalism to the job our relationship with M/S Instrument Care (Chennai) Pvt. Ltd. so far has been satisfying and rewarding.

(V.M BIJU)
