Prof. Chelli Janardhana,
Professor and Head.

TO WHOMSOEVER IT MAY CONCERN

We are pleased to inform that M/s. Instruments Care (Chennai) Pvt. Ltd, have serviced our Hitachi U-2001 UV-Visible spectrophotometer and HP make HPLC system (1050 series HPLC pump and 1047A RI detector) to our satisfaction in a short time. We are happy with the expertise of the service engineers and have found that they are always approachable for this kind of service. They have been looking after the major equipment in our instrumentation centre for the last five years.
