**TO WHOMSOEVER IT MAY CONCERN**

This is to place on record our Appreciation for the good work done by **M/s. Instruments Care** (Chennai) Pvt. Ltd., towards repairing of our Perkin Elmer make Atomic Absorption Spectrophotometer (Model: AAnalyst 700) which was under breakdown. Subsequently the problem was spotted out in the System at the Component level obviating the need for costly board level replacement recommended by the equipment supplier.

During the above repairing process, they have shifted the Instrument to their Service Lab for solving the Electronic problems and they have completely reconditioned the Instrument to avoid any intermittent problems in future. The commitment and professional enthusiasm they exhibit towards their work is exemplary. We are fully satisfied with the prompt and effective services provided by them.

(Dr.M.Jayaprakash)
